The “Complication” element is any medical complication that occurred during the patient’s stay at your hospital. Select an option from the drop-down menu. This is a National Data Element.

Complication Screen – Hospital Complications (2)

The screenshot displays the 'Indiana Patient Registry' interface. The top navigation bar includes 'My Facility', 'Data Exchange', 'Reports', and 'Report Writer'. A search bar is located on the right. The left sidebar lists various facility management options. The main content area is divided into several sections: 'Incident Information', 'Complications', and 'Performance Improvement Audits'. The 'Complications' section is currently active, showing a table with columns for 'Complication', 'Status', 'Occurrence Date', 'PR Date', and 'Corrective Action'. A red circle highlights the 'Select Complication' dropdown menu. Below this, there are checkboxes for 'Cannot Be Determined', 'Disease-Related', 'Provider-Related', and 'System-Related'. The 'Performance Improvement Audits' section follows a similar layout with a 'Select Audit Type' dropdown and checkboxes for determination categories. The bottom of the screen shows a status bar with 'Local intranet | Protected Mode: Off' and a 100% zoom level.

The “Occurrence Date” element is the date that the complication was first documented. If you prefer not to type the date in, click on the calendar icon and select a date.

Complications / PI Screen – Complication PR Date

The screenshot displays the 'Indiana Patient Registry' interface. The top navigation bar includes 'My Facility', 'Data Exchange', 'Reports', and 'Report Writer'. A search bar is located on the right. The left sidebar contains a 'My Facility' dropdown and a list of links: 'Image Trend Facility, MN 47460', 'Patient Discovery', 'Incident History', 'Facility Setup', 'Registry Users', 'Patient Care Staff', and 'Inbox (0 Unread)'. The main content area is titled 'Complications / PI' and features a tabbed interface with 'Complications' and 'Performance Improvement Audits'. The 'Complications' tab is active, showing a table with columns: 'Complication (NTDB Complication Definition)', 'Status', 'Occurrence Date', 'PR Date', and 'Corrective Action'. The 'PR Date' column is circled in red. Below the table, there are input fields for 'Determination' (with checkboxes for 'Cannot Be Determined', 'Disease-Related', 'Provider-Related', and 'System-Related'), 'Further Explanation/Action', 'Preventability', and 'Judgment'. The 'PR Date' field is currently empty, and a calendar icon is visible next to it. The bottom of the screen shows a 'Submit' button and a 'Reset' button. The footer includes the text 'Indiana Patient Registry' and 'Local intranet | Protected Mode: Off'.

The “PR Date” element is the complications peer review date. If you prefer not to type the date in, click on the calendar icon and select a date.

Complications / PI Screen – Complication Corrective Action

The screenshot displays the 'Indiana Patient Registry' interface. The top navigation bar includes 'My Facility', 'Data Exchange', 'Reports', and 'Report Writer'. A search bar is located on the right. The left sidebar lists various facility management options. The main content area is divided into two sections: 'Complications' and 'Performance Improvement Audits'. Both sections have a table with columns for 'Complication' (or 'Audit'), 'Status', 'Occurrence Date', 'PR Date', and 'Corrective Action'. In the 'Complications' section, the 'Corrective Action' dropdown menu is highlighted with a red circle. Below the table, there are checkboxes for 'Determination' (Cannot Be Determined, Disease-Related, Provider-Related, System-Related) and a text area for 'Further Explanation/Action'. At the bottom, there are 'Submit' and 'Reset' buttons.

The “Corrective Action” element is the action taken based on the complication. Select an option from the drop-down menu.

Complications / PI Screen – Complication Corrective Action (2)

The screenshot displays the Indiana Patient Registry interface. The top navigation bar includes 'My Facility', 'Data Exchange', 'Reports', and 'Report Writer'. The left sidebar lists various facility management tools. The main content area is divided into sections for 'Incident Information', 'Complications', and 'Performance Improvement Audits'.

In the 'Complications' section, the 'Corrective Action' dropdown menu is highlighted with a red circle. The menu shows 'Other' as the selected option. Below this, there are fields for 'Determination' (with checkboxes for 'Cannot Be Determined', 'Disease-Related', 'Provider-Related', and 'System-Related'), 'Further Explanation/Action' (a text area), 'Preventability' (a dropdown menu), and 'Judgment' (a dropdown menu).

The 'Performance Improvement Audits' section follows a similar layout with its own set of determination checkboxes, explanation text area, and preventability/judgment dropdowns.

At the bottom of the form, there are 'Submit' and 'Reset' buttons. The footer of the page indicates 'Indiana Patient Registry' and 'Local intranet | Protected Mode: Off'.

If “Other” is selected in the “Corrective Action” element, a new data element will appear on the form that will allow you to textually enter any other corrective action taken based on the complication.

Complications / PI Screen – Complication Determination

The screenshot displays the 'Indiana Patient Registry' interface. The top navigation bar includes 'My Facility', 'Data Exchange', 'Reports', and 'Report Writer'. A search bar is located on the right. The left sidebar lists various facility management options. The main content area is divided into two sections: 'Complications' and 'Performance Improvement Audits'. The 'Complications' section is currently active, showing a table with columns for 'Complication', 'Status', 'Occurrence Date', 'PR Date', and 'Corrective Action'. Below the table, there is a 'Determination' section with four checkboxes: 'Cannot Be Determined', 'Disease-Related', 'Provider-Related', and 'System-Related'. These checkboxes are circled in red. To the right of the checkboxes is a text area for 'Further Explanation/Action'. Below this, there are dropdown menus for 'Preventability' and 'Judgment'. The 'Performance Improvement Audits' section is also visible below the complications section, with a similar layout for determination and explanation.

The “Determination” element indicates what caused the complication. Select as many options as apply to the complication.

Complications / PI Screen – Complication Further Explanation/Action

The screenshot displays the 'Indiana Patient Registry' interface. The top navigation bar includes 'My Facility', 'Data Exchange', 'Reports', and 'Report Writer'. A search bar is located on the right. The left sidebar contains a 'My Facility' dropdown and a list of links: 'Image Trend Facility, MN 47460', 'Patient Discovery', 'Incident History', 'Facility Setup', 'Registry Users', 'Patient Care Staff', and 'Inbox (0 Unread)'. The main content area is titled 'Complications / PI Screen' and features a tabbed interface with 'Search', 'Actions', and 'History'. The 'Search' tab is active, showing a table with columns: 'Demographics', 'Injury', 'Pre-Hospital', 'Referring', 'ED / Acute Care', 'Initial Assessment', 'Diagnosis', 'Comorbidity', 'Procedures', 'Complications / PI', and 'Outcome'. The 'Complications / PI' column is highlighted. Below the table, there is a section for 'Complications' with a 'Select Category' dropdown, 'Open' and 'Closed' radio buttons, and a 'Further Explanation/Action' text area. The 'Further Explanation/Action' text area is circled in red. Below this, there is a section for 'Performance Improvement Audits' with a 'Select Audit Type' dropdown, 'Open' and 'Closed' radio buttons, and a 'Further Explanation/Action' text area. At the bottom, there are 'Submit' and 'Reset' buttons. The footer of the page includes 'Indiana Patient Registry', 'Local intranet | Protected Mode: Off', and a zoom level of '100%'.

The “Audit” element is the performance improvement audit. Select an option from the drop-down menu.

Complication Screen – Performance Improvement Audit Status

The screenshot displays the 'Indiana Patient Registry' interface. The top navigation bar includes 'My Facility', 'Data Exchange', 'Reports', and 'Report Writer'. The left sidebar lists various facility management tools. The main content area is divided into several sections:

- Incident Information:** Includes fields for Validity (69%), Status (In Progress), Lock (Unlocked), Import Status (Typed In), Trauma Registry # (IT-120109-025), Patient (Smith, Jon W), Medical Record # (1234567890123), NTR Inclusion (Yes), Entered date (01/09/12), and Updated date (02/07/12).
- Complications:** A table with columns for Complication, Status, Occurrence Date, PR Date, and Corrective Action. Below the table, there are radio buttons for 'Open' and 'Closed', and a 'Not Applicable' dropdown.
- Performance Improvement Audits:** A table with columns for Audit, Status, Occurrence Date, PR Date, and Corrective Action. Below the table, there are radio buttons for 'Open' and 'Closed', and a 'Not Applicable' dropdown.

The 'Status' radio buttons for both the 'Complications' and 'Performance Improvement Audits' sections are circled in red. The 'Open' radio button is selected in both cases.

At the bottom of the form, there are 'Submit' and 'Reset' buttons. The footer of the page indicates 'Local intranet | Protected Mode: Off' and a zoom level of 100%.

The “Status” element is the status of the QA peer review judgment. You have the option to select “Open” or “Close”.

Complications / PI Screen – PI Audit Occurrence Date

The screenshot displays the Indiana Patient Registry interface. The top navigation bar includes 'My Facility', 'Data Exchange', 'Reports', and 'Report Writer'. A search bar is located on the right. The left sidebar contains a 'My Facility' dropdown and a list of links: 'Image Trend Facility, MN 47460', 'Patient Discovery', 'Incident History', 'Facility Setup', 'Registry Users', 'Patient Care Staff', and 'Inbox (0 Unread)'. The main content area is divided into two sections: 'Complications' and 'Performance Improvement Audits'. The 'Complications' section has a table with columns for 'Complication', 'Status', 'Occurrence Date', 'PR Date', and 'Corrective Action'. Below this is a form for adding a new complication, including a 'Select Category' dropdown, 'Open'/'Closed' radio buttons, a 'Determination' section with checkboxes for 'Cannot Be Determined', 'Disease-Related', 'Provider-Related', and 'System-Related', a 'Further Explanation/Action' text area, and 'Preventability' and 'Judgment' dropdowns. The 'Performance Improvement Audits' section has a similar table and form. In the 'Performance Improvement Audits' form, the 'Occurrence Date' field is circled in red. At the bottom of the form are 'Submit' and 'Reset' buttons. The footer shows 'Indiana Patient Registry' and 'Local intranet | Protected Mode: Off'.

The “Occurrence Date” element is the date that the performance improvement occurred. If you would prefer not to type the date in, click on the calendar icon and select a date.

Complications / PI Screen – PI Audit PR Date

The screenshot displays the Indiana Patient Registry interface. The top navigation bar includes 'My Facility', 'Data Exchange', 'Reports', and 'Report Writer'. The left sidebar lists various facility management tools. The main content area is divided into two sections: 'Complications' and 'Performance Improvement Audits'. Both sections have a table with columns for 'Complication' or 'Audit', 'Status', 'Occurrence Date', 'PR Date', and 'Corrective Action'. The 'PR Date' column in the 'Performance Improvement Audits' section is highlighted with a red circle, indicating the field for the QA indicator peer review date. Below the tables are 'Submit' and 'Reset' buttons.

The “PR Date” element is the QA indicator peer review date. If you would prefer not to type the date in, click on the calendar icon and select a date.

Complications / PI Screen – PI Audit Corrective Action

The screenshot displays the Indiana Patient Registry interface. The top navigation bar includes 'My Facility', 'Data Exchange', 'Reports', and 'Report Writer'. The left sidebar lists various facility management tools. The main content area is divided into two sections: 'Complications' and 'Performance Improvement Audits'. Both sections have a table with columns for 'Status', 'Occurrence Date', 'PR Date', and 'Corrective Action'. In the 'Performance Improvement Audits' section, the 'Corrective Action' dropdown menu is highlighted with a red circle. Below the table, there are checkboxes for 'Determination' (Cannot Be Determined, Disease-Related, Provider-Related, System-Related) and a text area for 'Further Explanation/Action'. At the bottom, there are 'Submit' and 'Reset' buttons.

The “Further Explanation/Action” element allows you to textually explain the performance improvement audit further.

Complications / PI Screen – PI Audit Preventability

The screenshot displays the Indiana Patient Registry web application. The top navigation bar includes 'My Facility', 'Data Exchange', 'Reports', and 'Report Writer'. A search bar is located on the right. The left sidebar contains a 'My Facility' section with options like 'Image Trend Facility', 'Patient Discovery', 'Incident History', 'Facility Setup', 'Registry Users', 'Patient Care Staff', and 'Inbox (0 Unread)'. The main content area is divided into two sections: 'Complications' and 'Performance Improvement Audits'. The 'Complications' section has a table with columns for 'Complication', 'Status', 'Occurrence Date', 'PR Date', and 'Corrective Action'. Below the table, there are fields for 'Select Category', 'Determination' (with checkboxes for 'Cannot Be Determined', 'Disease-Related', 'Provider-Related', and 'System-Related'), 'Further Explanation/Action', and 'Preventability' (a dropdown menu). The 'Performance Improvement Audits' section has a similar layout. In the 'Performance Improvement Audits' section, the 'Preventability' dropdown menu is highlighted with a red circle. The bottom of the page shows a 'Submit' button, a 'Reset' button, and a footer with 'Indiana Patient Registry' and 'Local intranet | Protected Mode: Off'.

The “Preventability” element is the determination as to whether or not the performance improvement audit could have been prevented. Select an option from the drop-down menu.

Complications / PI Screen – PI Audits Judgment

The screenshot displays the Indiana Patient Registry interface. The top navigation bar includes 'My Facility', 'Data Exchange', 'Reports', and 'Report Writer'. A search bar is located on the right. The left sidebar contains links to 'Image Trend Facility', 'Patient Discovery', 'Incident History', 'Facility Setup', 'Registry Users', 'Patient Care Staff', and 'Inbox (0 Unread)'. The main content area is divided into two sections: 'Complications' and 'Performance Improvement Audits'. The 'Complications' section shows a table with columns for 'Complication', 'Status', 'Occurrence Date', 'PR Date', and 'Corrective Action'. Below the table, there are fields for 'Select Category', 'Determination' (with checkboxes for 'Cannot Be Determined', 'Disease-Related', 'Provider-Related', and 'System-Related'), 'Further Explanation/Action', 'Preventability', and 'Judgment'. The 'Performance Improvement Audits' section has a similar layout. In the 'Performance Improvement Audits' section, the 'Judgment' dropdown menu is circled in red, showing 'Not Applicable' as the selected option. At the bottom of the form are 'Submit' and 'Reset' buttons. The footer of the application shows 'Indiana Patient Registry' and 'Local intranet | Protected Mode: Off'.

The “Judgment” element is the peer review judgment of a QA indicator. Select an option from the drop-down menu.
